

Successful Device Approvals

Summary of Course Content
IRSC General Radiation Safety Training:
Radiation Machines Refresher Training

This course is a general overview of the use of x-ray equipment, and is appropriate for the use of medical, dental, veterinary, analytical, and industrial x-rays use. This course does not meet the requirements for training Medical Radiologic Technologists (RTs) in taking xrays, nor is it designed for industrial radiographers requiring detailed training under license conditions.

- Reminder on not defeating interlocks
- Reminder on Principles of Radiation Safety (ALARA)
- Pregnant Worker Declarations
- Reporting incidents or lost or stolen portable devices
- Documenting Surveys
- Wearing Personal Protective Equipment
- Regulations/Workers Rights & Responsibilities
- Any relevant changes to international standards or US state or federal regulations.

The course and quizzes can be completed in 1-2 hours, depending upon the trainee's familiarity with the subject matter.
